

## **SEMINAR ON PHYSIO ABROAD**

M.A.Rangoonwala College of Physiotherapy and Research held seminar organized by physio abroad on 2nd June, 2022. Students from third year, final year, interns and PG's attended this seminar.

The eminent speaker was Dr Chinmoyee Panigrahy (PT) who is the Indian manager of the New York based organization physio abroad. Physio abroad is an Indian based physiotherapist recruiter which helps to get an early placement. The seminar was very insightful. They walked us through the whole process of visa approval, types of visa for USA, types of licensing exam i.e. PT (physical therapist) and PTA (physical therapy assistant).

The seminar also enlightened us about how the documentation is different from India as the health care system in USA is insurance based. Overall it was a truly informative seminar and provided guidance to all the students who wanted to start their career in USA.
