The students and staff of our college attended this session with interest and support towards the initiative of the awareness camp. In this session students were enlightened about Road Safety Measures and Basic Life Support during Road Traffic Accidents (RTA). They used video demonstrations to make the students aware about how accidents occur and how to avoid them.

It was quite helpful session for students and staff. The session lasted for an hour. The attendees were informed that they will be receiving an e-certificate after the session. We are thankful to the management for giving us the permission to conduct the same.
